

### CGP2001 Game Design – Assignment 2 – Criterion Referencing Grid

Learning Outcome	Criteria	Fail	Marginal Fail	Pass	Lower Second	Upper Second	First
[LO2] examine the architecture, design and underlying patterns of a game	Individual written critique	Critique not submitted, or the quality of the submission is such that it doesn't constitute a critique.	Written submission, poor, unfocussed critique	The game is summarised and described only. There is little or no analysis of the game and its gameplay features.	An attempt is made to analyse the game structure and its features. Some reference to MDA and/or gameplay may be made, however, this may be inadequate on which to base the critique.	The game is analysed, and some evidence of evaluation of the effectiveness of the game and its features is present. There may be reference to the MDA, or the gameplay structure of the game.	A full analysis and evaluation is made. Evidence of informed opinion based upon the evaluation of the MDA of the game and its features. The positioning of the mark in this category will be dependent upon the content and presentation of the written materials.
